

ENVIRONMENTAL POLICY

Our vision is to remain faithful to the tradition of Greek hospitality and based on the defined operating standards of ISO 14001, to offer our customers through professional and friendly staff, the quality and safe services, which are constantly evolving, improve and protect the environment.

The Environmental Policy consists of:

- The assessment of the environmental impact of our activities to reduce or eliminate the negative impact
- To be active in every possible way towards the protection of the environment and the prevention of pollution,
- To ensure a comfortable and quiet stay for guests in our hotel
- To maintain the excellent condition of our facilities and the operation of our equipment.
- The creative interaction with local actors and participation in environmental activities

All of us: the Management and the employees of **PARALOS LIFESTYLE BEACH**, believe in the continuous improvement and we are committed to the following, which constitute the company's Environmental Policy:

1. To faithfully implement and continuously improve the Environmental Management System according to ISO 14001: 2015.
2. Carry out actions for energy saving, reduction of water consumption, proper management of generated wastewater, reduction, and proper management of generated solid waste
3. Maintain good air quality
4. To protect the beach and water quality
5. To comply with any legal or other requirement to which the activities of our business fall.

To achieve all the above, we have to:

- Cooperate with the local agencies to maintain the natural beauty of the area
- We inform all stakeholders in the area about the environmental actions, that our hotel proceeds, in order to raise their awareness and participation.
- Every year we train the staff in order to actively participate in the environmental management system.
- We inform the customers about the environmental actions of our hotel, in order to encourage their active participation
- We use only high-quality raw materials and evaluate our suppliers
- We maintain the facilities and equipment in excellent condition and prevent any problems.

The staff is aware of the Environmental Policy of the Company and contributes to its Implementation.

The Management of the Company is committed to supporting the implementation of the Policy.
